About Corus:

Corus International is the parent of a family of world-class organizations working to deliver the holistic, lasting solutions needed to end extreme poverty once and for all. We are a global leader in international development, with 150 years of combined experience across our brands. Our nonprofit and for-profit subsidiaries include IMA World Health and its fundraising brand Corus World Health, Lutheran World Relief, CGA Technologies, Ground Up Investing, and Farmers Market Brands. Our more than 800 employees around the globe are experts in their fields and dedicated to helping the world's most vulnerable people break the cycle of poverty and lead healthy lives.

At Corus we believe that good only grows stronger and we reflect that belief in our workplace culture. We value every employee's specialized area of expertise and nurture professional growth. We promote an engaging and supportive work environment, where employees feel enabled and driven to innovate, learn and collaborate. And because our subsidiaries often function as partners, our employees have the opportunity to work across our enterprise family.

Corus is committed to diversity, equity and inclusion in our worldwide workplace, and we believe that social justice and respect for the human dignity of every person are fundamental to all we do as an organization.

Job Brief:

Position Summary:

The Senior Technical Advisor for Nutrition is a member of the Health and Nutrition department within the Program Strategy & Technical Excellence (PSTE) Team. The competencies required to be successful in this position include a high level of theoretical and practical understanding of global nutrition and public health practice areas, including nutrition in food security programming and in emergency contexts; demonstrated technical knowledge of the state of the art for global public health nutrition; the ability to

lead the technical approach for nutrition for new business; and demonstrated professional stature in nutrition; ability to represent the organization in technical working groups and other public health forums; and demonstrated ability to conduct nutrition research and publish results in peer-reviewed journals. The **Senior Technical Advisor for Nutrition** provides technical assistance and oversight to projects to ensure quality of nutrition programming, provides technical input to programs and new business development through TDY support, and contributes to departmental, regional, and corporate strategies. The individual must develop a strong working knowledge of USAID, and other high priority donor technical strategies, priorities, policies, and guidelines.

To perform this job successfully, an individual must be able to perform each essential duty listed below satisfactorily.

Key Result Areas:

The success of this role is measured by the following KRAs:

1. Advances Corus International's nutrition technical capacity and programming, including in emergency contexts.
2. Increases Corus International's visibility and leadership in nutrition programming.
3. Grows Corus' International nutrition portfolio.
4. Ensures timely support of implementation of planned nutrition funded activities
5. Provides Humanitarian and Rural Economies and Agricultural Livelihoods teams to design and implement nutrition in emergencies and agriculture sensitive nutrition programs

Roles and Responsibilities:

1. Develop and maintain relationships with USAID, Ministry of Health (MOH), and partners and stakeholders at national sub-national levels
2. Provide business development support to Corus as needed in nutrition and other related areas
3. Support Corus thought leadership and provide technical assistance to headquarters and field teams as needed in nutrition and other related areas

Program Support and Technical Advisory Services

1. Provide technical leadership for nutrition components of programs; understand project vision and objectives while providing leadership to country-level nutrition technical staff.
2. Provide nutrition technical leadership and assistance to projects to develop and implement communication strategies and materials, through all phases from formative research, design, media and materials production, community mobilization, and monitoring and evaluation (M&E).
3. Provide technical leadership to overall project management, including the development of work plans and budgets, implementation, reporting and M&E, and compliance with the requirements and regulations of the award.
4. Work closely and collaboratively with the project HQ team and county-level nutrition and livelihoods technical staff to document successes and lessons learned and use evidence-based learning to guide and improve implementation of nutrition interventions.
5. Conduct nutrition related trainings and workshops for staff, implementing partners, and other community-based stakeholders.

6. Provide technical guidance for the design and implementation of nutrition program activities with the goal of ensuring that program design and implementation will achieve planned results and goals
7. Document lessons learned and adapt/develop relevant technical materials, products and tools as needed and share best practices and important innovations on nutrition.
8. Coordinate with the external relations team and with the country offices to produce communications materials for external audiences.
9. Expand the use of nutrition-specific and nutrition-sensitive approaches through development and promotion of evidence-based tools and materials- e.g., training curricula, job aids, mobile applications

Business Development:

1. Contribute to overall technical vision and support for nutrition programs and new business development opportunities.
2. Work with the business development team to identify opportunities, engage in representation, networking and cultivation of relationships with partners, technical donors and other organizations implementing programs.
3. Undertake leadership role in proposal development, analyzing and recommending bid decisions, and conceptualizing teaming, technical approaches, and cost strategies to maximize competitive advantage.
4. Serves as proposal leader and/or technical writer, providing vision and leadership to proposal team.
5. Provides technical guidance and expert input to development of strategies and approaches related to nutrition.
6. Carry out analyses, feasibility studies, strategy development, and project design for nutrition programs.

Representation:

1. Represent the organization to donors, host country governments, project stakeholders, and counterparts in the public and private sectors.
2. Identify opportunities to raise Corus International's profile in nutrition through participation in conferences, strategic meetings, public speaking engagements, and publications.
3. Participate in nutrition technical working groups to ensure program and institutional representation in the international health and humanitarian contexts community.
4. Establish and maintain productive collaborative relationships with a wide range of partners and stakeholders, USAID, relevant national ministries, multi-lateral partners, and civil society groups and NGOs

Supervisory:

This role reports to the Associate Vice President, Global Health & Nutrition Team, Program Strategy and Technical Excellence Team. This role has 0 direct reports.

Education:

This role required an advanced degree such as a Master's degree or PhD in nutrition, or Public Health, with an emphasis on nutrition.

Qualifications:

- At least seven (7) years of nutrition specific experience in designing, development, implementation, monitoring and evaluation of nutrition strategies and materials as well as related training
- Demonstrated experience leading successful international health proposal design and development
- Strong working knowledge of USG and other international donor funding mechanisms (including grants, contracts, and cooperative agreements) required
- Demonstrated ability to solve complex technical and program implementation problems in a timely and successful manner.
- Demonstrated expertise developing and implementing monitoring and evaluation (M&E) plans, conducting high quality field-based nutrition research, ability to analyze data, identify successful approaches and tools and modify program implementation to optimize program performance and achievement of goals.
- Demonstrated knowledge of the literature for global nutrition and ability to contribute to the evidence base through innovation and peer-reviewed publications.
- Demonstrated versatility and integrity as well as leadership, mentorship, management, organizational, and decision-making skills.
- Proficient writing and verbal communication skills
- Must be able to read, write and speak fluent English and French languages.
- Strong organizational skills, and ability to manage multiple streams of work
- Ability to work independently as well as in cooperation with a multi-cultural team
- Ability to think creatively and strategically
- At least three years' experience in international health programming, including in fragile settings

Other Duties:

This job description is not designed to cover or contain a comprehensive list of activities, duties, or responsibilities for the position. Duties, responsibilities, and activities may change at any time with or without notice. All positions are required to perform any additional tasks assigned by the supervisor. Global positions that are bound by contracts will not be changed without notice and approval.

Working Conditions, Travel and Environment:

Able to travel up to 30% of time annually, including to hardship countries. Flexibility and ability to travel on short notice desired.

This position will be based in Washington D.C, Baltimore, Maryland or fully remote worldwide.

Diversity, Equity, Inclusion and Zero Tolerance to Abuse:

As a member of the Corus Family, each employee is expected to:

- Help to develop and maintain an environment that welcome and develop a diverse workforce.
- Foster a work environment where everyone feels valued and included.
- Support employees' evaluation and promotion processes based on skills and performance.
- Promote a safe, secure, and respectful environment for all members of Corus family, stakeholders in general, and particularly for the communities we serve.
- Follow Corus Code of Conduct helping to prevent any type of abuse including workplace harassment, sexual abuse and exploitation, and trafficking in persons.

- Adhere to the Organizational Core Values

Corus International prohibits discrimination and harassment of any type and affords equal employment opportunities to employees and applicants without regard to race, color, religion, sex, age, national origin, disability status, sexual orientation, protected veteran status, or any other characteristic protected by U.S. or International law.
